FMLA DESCRIPTION OF SERIOUS HEALTH CONDITION¹

A "Serious Health Condition" means an illness, injury, impairment, or physical or mental condition that involves one of the following:

1. Hospital Care

Inpatient care (i.e. an overnight stay) in a hospital, hospice, or residential medical care facility, including any period of incapacity or subsequent treatment² in connection with or consequent to such inpatient care.

2. Absence Plus Treatment

A period of incapacity of *more than three consecutive calendar days* (including any subsequent treatment or period of incapacity relating to the same condition), that also involves:

- (a) *Treatment two or more times* by a health care provider, by a nurse or physician's assistant under direct supervision of a health care provider, or by a provider of health care services (e.g., physical therapist) under orders of, or on referral by, a health care provider; or
- (b) *Treatment by a health care provider on at least one occasion* which results in a *regimen* of continuing *treatment*³ under the supervision of the health care provider.

3. Pregnancy

Any period of incapacity due to *pregnancy*, or for *prenatal care*.

4. Chronic Conditions Requiring Treatments

A *chronic condition* which;

- (a) Requires *periodic visits* for treatment by a health care provider, or by a nurse or physician's assistant under direct supervision of a health care provider;
- (b) Continues over an *extended period of time* (including recurring episodes of a *single underlying condition*); and
- (c) May cause *episodic* rather than a continuing period of incapacity⁴ (e.g., *asthma, diabetes, epilepsy*).

5. Permanent/Long-term Conditions Requiring Supervision

A period of incapacity⁴ which is *permanent or long term* due to a condition for which treatment may not be effective. The employee or family member must be *under the continuing supervision of, but need not be receiving active treatment by, a health care provider*. Examples include Alzheimer's, a severe stroke, or the terminal stages of a disease.

6. Multiple Treatments (Non-Chronic Conditions)

Any period of *absence to receive multiple treatments* (including any period of recovery therefrom) by a health care provider or by a *provider of health care services under orders of, or on referral by, a health care provider*, either for *restorative surgery* after an accident or other injury, or for a condition that *would likely result in a period of incapacity⁴ of more than three consecutive calendar days in the absence of medical intervention or treatment, such as cancer (chemotherapy, radiation, etc.) severe arthritis (physical therapy), kidney disease (dialysis)*.

¹ Here and elsewhere on this form, the information sought relates only to the condition for which the employee is taking FMLA leave.

² *Treatment* includes examinations to determine if a serious health condition exists and evaluations of the condition. Treatment does not include routine physical examinations, eye examinations, or dental examinations.

³ A *regimen of continuing treatment* includes, for example, a course of prescription medication (e.g., an antibiotic) or therapy requiring special equipment to resolve or alleviate the health condition. A regimen of treatment does not include the taking of over-the-counter medications such as aspirin, antihistamines, or salves; or bed-rest, drinking fluids, exercise, and other similar activities that can be initiated without a visit to a health care provider.

⁴ "Incapacity," for purposes of FMLA, is defined to mean inability to work, attend school or perform other regular daily activities due to the serious health condition, treatment therefor, or recovery therefrom.
